Skills

- **Programming:** Java, JavaScript
- **Frontend:** HTML, CSS
- **Backend:** Java (Spring Boot)
- **Database:** MySQL
- **Core:** OOP, Data Structures and Algorithms

Projects

CORE – Classroom Oversight & Reporting Engine

3 months

Tech: Java, HTML, PHP, MySQL, JavaScript

- Developed a web-based system for attendance, timetable, and academic management.
- Enabled manual attendance entry with automated parent notifications.
- Implemented attendance analysis and internal assessment with average calculation.
- Generated Excel reports using PHP, MySQL, HTML, CSS, and JavaScript.

Vehicle Service Management System

1.5 months

Tech: Java, HTML, PHP, MySQL

- Built a system to manage maintenance and repair tasks for two-wheelers.
- Facilitated service appointment scheduling through service requests.
- Diagnosed issues and ensured timely and quality service delivery.
- Improved workflow efficiency and customer satisfaction.

Experience

Software Development Intern

6 Months

Tap Academy

- Trained in Java programming with a strong focus on OOP concepts.
- Developed responsive user interfaces using HTML, CSS, and JavaScript.
- Gained experience in Oracle SQL, JDBC, and Hibernate.
- Built and deployed web applications using Servlets, JSP, and Spring Boot.

Education

B.E in Computer Science

S. G. Balekundri Institute Of Technology, Belagavi, India

CGPA: 8.01

2022 – 2026

Achievements

- Basics of Data Structures and Algorithms – Simplilearn
- Full Stack Java Development – Udemy
- Cloud Computing Fundamentals – IBM
